WORK EXPERIENCE

FRONTEND DEVELOPER | TALLWALL   January 24 - February 25
- Collaborated with 3+ cross-functional teams to gather requirements, define project scopes, and ensure alignment with business objectives, fostering effective teamwork and project success..
- Conducted in-depth market research and analysis, resulting in the identification of 10+ key trends and insights that informed strategic decision-making processes.

FRONTEND DEVELOPMENT INTERNSHIP | BHARAT INTERN   Octo 23-January 24
- Efficiently translated mockups from designs to built, functional, and responsive applications.
- I successfully streamlined existing processes, reducing the project delivery time by 1-2 days.
- Improved attention to detail, eye skills regarding design, and ability to build UI.

FRONTEND DEVELOPER SUPPORT | FRONTEND SIMPLIFIED   June 22 - August 23
- Supported and contributed to 1,000+ student projects using HTML, CSS, Flexbox (**responsive layout**), JavaScript, and React best practices.
- Helped with the understanding of some programming concepts, including responsive website development, CSS layout, promises, and **API requests.**

SKILLS SUMMARY

- **Languages**: JavaScript ES6+, Html 5, CSS3(BEM)
- **Frameworks/Libraries:** React.JS, Next.JS, Node.JS, Jest, Styled Components, Payload CMS.
- **Tools**: Restful APIs, AJAX, NPM, Yarn, Git, GitHub, React dev tools, Firebase v9, Vite, Chrome Dev Tools, PowerPoint, Word ● **Platforms**: Visual Studio Code.
- **Soft Skills**: Good listener, attention to detail, patience, excellent communication, fast-thinking, opinion giver, adaptability.

PROJECTS

Personal Portfolio | [Website](#)
- Demonstrated proficiency and well-rounded knowledge in front-end development while building a web exhibition of my personal projects.
- Designed and brought to life my portfolio using position-oriented animations and simple displays.

Romi Finance | [Website](#) | [Code](#)
- Designed and developed a front-end assessment, enabling a structured evaluation process for front-end developer candidates
- Implemented a **pixel-perfect UI** Challenge, requiring applicants to accurately replicate this given design.
- Optimized the **assessment workflow** by creating a scalable, reusable test interface, improving the candidate screening efficiency.

Treact React Templates | [Website](#) | [Code](#)
- **Developed a reusable React Template** for Treact, enabling efficient showcasing of React-based solutions while adhering to industry best practices
- Implemented scalable and maintainable code, contributing to a larger project with modular architecture and optimized **component reusability**.
- **Enhanced delivery time** by 35% working with a cross-functional team, ensuring seamless integration within a broader system.

EDUCATION

CS50: Introduction to Computer Science (Harvard)
- I was introduced to fundamental Python syntax, proficiently utilizing control flow, loops, functions, and data structures.
- Acquired vast knowledge of the workflow and valuable lessons about Computer Science itself as a field.

Frontend Developer Bootcamp (Frontend Simplified)
- Developed an in-depth understanding of design composition and UI/UX development.
- Constantly exposed to projects to advance and refine my knowledge in CSS and JavaScript for better code.

Frontend Developer Professional Certification (Meta)
- Developed a comprehensive understanding of the life cycle and various stages involved in UI development.
- Learned to use diverse applications designed to streamline and optimize the frontend development journey, enhancing and ensuring efficiency and accuracy.
- Exposed to testing through Jest in the learning phase.
